Samuel Adams, B.S.

Richmond, VA | 813 454 6265 | i.am.sadams@gmail.com | linkedin.com/in/samuelhadams

Key Skills

✔ Java	✔ C++	✔ Javascript/Typescript	✔ HTML	✔ CSS
✔ ReactJS	✔ Vue.JS	✔ Amazon Web Services	✔ Jenkins/Git	✔ Jest

- **Other Skills** - Multitasking, Attention to Detail, Problem Solving, Enthusiasm, Getting Involved

Education

Bachelor of Computer Science, University of Florida **| 2021**
- **Coursework** - Data Structures and Algorithms, Discrete Structures, Databases, Software Security, Javascript Development, Operating Systems, UX and UI Design, AI and Pathfinding Algorithms, Analysis of Java Compiler

Experience

Associate Software Engineer - Capital One **| 2021 - Present**
- Worked as part of two separate 5-8 member Agile teams to deliver full stack solutions to a variety of production support, AWS management, Jenkins, Angular.js, Vue.js, Java Spring, Docker, and Database (PostgreSQL) related technical problems, and Whitesource/Mend incident management as part of multiple Continuous integration (CI/CD) environments
- Added, fixed, troubleshooting tests with Jest, JUnit, Mocha, Cucumber
- Quickly came up to speed onboarding onto both teams and delivered over 120 story points in less than 2 years
- Served as Tech Debt Champion to announce and keep team accountable for Github issues and repository maintenance, including 16 new stories from identified issues
- Spearheaded deployment of new Offer Presentation UI flow for agents in CR org, including production troubleshooting and fast-follower deployment into live environment
- Implemented Fastify security logging integration to UI container to modernize our monitoring and alerting infrastructure
- Volunteered as part of the Coders program teaching middle school students over 5 different programs, including as site lead and instructor in a 10 week program
- Facilitated onboarding and provided resources for 2 new team members

Software Engineering Technical Intern - Capital One **| 2020**
- Worked as part of 8 member Agile style software team to deliver front end Angular implementation on a largely independent intern-coded project; "Voltron Command Center"
- Regularly met with team for agile ceremonies and completed stories on a biweekly basis for 3 months

Desk Assistant - University of Florida, Teaching Center **| 2020**
- Managed an office of 30+ tutors and routed calls to the appropriate offices, input data and into a computer system on strict timeline

Assistant to Building Manager - University of Florida (ASABE) **| 2018**
- Maintained and performed repairs on one of the largest engineering departments on campus and a fleet of 21 vehicles
- Organized 5 member team to complete work properly, on time, and safely
- Demonstrated flexibility of skill and time management by tending to additional odd jobs, cleaning, manual labor while still ensuring daily activities were completed

Personal Projects
- Drink Spinner (Google Play Store) - Creator **| 2023**
- MyCows Ultimate (iOS, Google Play Store) - Graphics Designer and React developer **| 2021**

Hobbies and Interests

- App development, front end, content creation
- Outdoors, camping, rock climbing, community garden, invasive plant removal, volunteering
- Theta Tau (Professional Engineering Fraternity) alumni
- University of Florida Gator Marching Band alumni
